- * Scope of application: water-based or oil-based color paste (1-24 kinds) with 12 head, 14 head, 16 head, 20 head color mixers available
- * Color paste barrel capacity: 2L/1.75
- * Maximum discharge: 60ml/2 ounces (2Y)
- * Minimum Discharge: 1/192Y – 0.14ml
1/384Y – 0.077ml 0.1ml
- * Working voltage: 220V 50HZ
- * 16-Head machine size: 530(L)x465(W)x895(H)
- * 16-Head machine packing size: 580(L)x540(W)x960(H)
- * Net weight: 295KG
- * Gross Weight: 47KG
- * 16-Head pallet size: 870(L)x870(W)x400(H)
- * 16-Head pallet packing size: 920(L)x920(W)x480(H)
- * Net weight: 29KG
- * Gross weight: 53KG Configurable
- * Fluid ounce (1f.20) standard and millilitre (ml) standard
- * White color paste tank or black color paste tank or stainless-steel color paste tank.
- * Working power supply: 220V 50HZ / 110V 60HZ
- * Electric stirring timed and electric stirring irregular

Product Advantages

1. Double pump double ruler with locking structure, so that the accuracy and reproducibility stability are guaranteed.
2. Rotating blade automatic stirring so that the color paste evenly distributed will not cause precipitation.
3. Rotating and positioning of the color paste bucket tray brings convenience to the operator.
4. Double pump switch valve body adopts the corrosion resistant ceramic leakproof structure patented by the company to ensure that the color paste does not leak (patent No. 200420045989.x)
The product can be used in paint, nail polish, leather dye and other aspects of the color paste color fine pigments.
